

# St John's Campus, Neerpair

News Letter - December 2013

## 1. Loyola College student outreach Camp:

Loyola college (one of the leading college in India) post graduation students attended outreach programme in our school. They stayed in St John's home, Neerpair. The first batch from mathematical and English department attended from 25<sup>th</sup> November to 30<sup>th</sup> November 2013. 72 students from both the department attend the training and benefited a lot. Then in the second batch 54 students from Chemistry and Visual communication attended the camp. The camp was on various fields like education provided in our school, village panchayat governance, various works we do in many villages and village experience as they are fully occupied with city life. Even some wondered to experience the village life. Fr John Suresh and Fr Jayaseelan conducted a few sessions for the students.

## 2. 'WE' students Leadership Training Workshop:

Rev Fr John Suresh, the founder of WE group arranged an orientation and motivational camp for two days (23<sup>rd</sup> & 24<sup>th</sup> November 2013) for both studying and working committee. Most of our members attended the camp which insisted a lot on social awareness and social responsibility of each and every individual in the society. The workshop really helped us to know how the society was and how the society is now. The problems and difficulties of downtrodden or the Dalits in the society were discussed. We also realized the need of reformation in the society by eradicating castism in the society

which is the root cause to many problems in the society. The young people need to fight against injustice and the need to build a just society.

## 3. Crib Preparation at St John's Home:

The month of December is always special for all of us. The reason for that is Christmas. Yes as Christmas is fast approaching our 11<sup>th</sup> standard students are very busy in preparing a beautiful crib. They put all their effort in making ship shape wonderful crib.

#### 4. Gardening :

The Children are very busy in preparing their own gardens. The reason for that is we had rain. They cleaned the garden and started to cultivate vegetables for St John's home. It is very interesting and happy to see the children are giving special care for their gardens.

#### 5. Water Treatment Plant:

The setting of water treatment plant from the school was not in working for the last few years. Now this system is shifted to children's home from the School and was fully serviced. As the result of this effort it provides mineral water for all of us. The children are very happy to have mineral water. This really helps a lot to have a good health. Because mostly we get illness through contaminated water. But no more we are going to have this problem.

#### 6. Writing Half - Yearly Examination:

Along with tight schedule our children are preparing themselves to face half- yearly examinations. Enough time is provided to study well along with other schedule. The wardens are advised always to be with students especially during study hours to help their studies.
