#### **PRIMARY SCHOOL:**

#### **ERECTION OF GATE ON BOTH SIDES OF STAIRCASE:**

During break time the small kids of our primary school go to the terrace and play. Some children run up and down in the steps and sometimes it causes injuries while running. After the rainy season, the children were busy in preparing their own gardens. Children have planted various types of vegetables and some have started to yield production. This really helps in reducing the expense spent on vegetables.

#### **SPORTS AND CULTURAL EVENTS:**

Children possess lot of talents and they may not be knowing them. So we take initiative and provide them opportunities to realize and develop their skills in different fields. Therefore we conduct sports and cultural events in which we make sure all the children participate and exhibit their talents. Likewise, today's children are tomorrow's leaders. Keeping in view of this we organized leadership training and yoga training which helps one to get sound mind and sound body.
